

Ideation Phase

Brainstorm & Idea Prioritization

Brainstorm & Idea Prioritization:

Different project ideas were analyzed and grouped based on their objectives, feasibility, and user requirements. Similar ideas related to customer support, complaint tracking, and service management were categorized together. After evaluation, the Customer Complaint Management System emerged as the most practical and impactful solution.

Step 1: Team Gathering, Collaboration and Select the Problem Statement

Brainstorm & idea prioritization As a team, brainstorm and list down as many ideas as possible. Encourage wild ideas! Then, prioritize the ideas based on impact and feasibility. ● High Impact, High Feasibility ● High Impact, Low Feasibility ● Low Impact, High Feasibility ● Low Impact, Low Feasibility	1 List down ideas Individually or together, generate as many ideas as possible that can solve real problems. ● Idea 1 _____ ● Idea 2 _____ ● Idea 3 _____ ● _____ 2 Discuss & clarify ideas Discuss each idea's potential impact, feasibility and relevance.	3 Select the problem statement Choose the idea that is most impactful, feasible and aligned with the needs of users and stakeholders. Write your Problem Statement here 4 Why this problem? List the reasons why this problem is important to solve. ● _____ ● _____ ● _____ ● _____
---	---	--

Step-2: Brainstorm, Idea Listing and Grouping

1 Brainstorm

Write down all the ideas you brainstormed about the problem.
(Use sticky notes)

Write one idea per sticky note.

Idea 1

Online Complaint Registration System

Idea 2

Complaint Tracking System

Idea 3

Customer Feedback Portal

Idea 4

Service Request Management System

Idea 5

Help Desk Management System

Idea 6

Agent Performance Monitoring System

Idea 7

Knowledge Base / FAQ Portal

Idea 8

Notification & Update System

Idea 9

Customer Support Chatbot

Idea 10

Escalator Management System

2 Group

Group similar ideas together into categories.
Look for patterns or common themes.

Groups / Themes

Write group name (or theme) and place the sticky notes here.

Customer Support & Service

Idea 5Idea 7Idea 8Idea 9

Performance & Analytics

Idea 6

Knowledge & Communication

Idea 3

Step-3: Idea Prioritization

1 Prioritize

Place each group / idea on the priority matrix based on Impact and Feasibility. Focus on ideas that are High Impact and High Feasibility.

20 minutes

Impact (Value)

How much value or benefit will this idea bring to the users and the problem?
(High to Low)

Feasibility

How easy or possible is this idea to implement with our time, resources and technology?
(Low to High)

1. Customer Complaint Management System

2. Help Desk Ticket Management System

3. Agent Performance Monitoring System

4. Customer Feedback Tracking System

5. Online Service Request Portal

High Priority
(High Impact, High Feasibility)

Medium Priority
(High Impact, Low Feasibility)

Medium Priority
(Low Impact, High Feasibility)

Low Priority
(Low Impact, Low Feasibility)
