Define the Problem Statements

Date	14-07-2026
Project Name	Customer Registry

Customer Problem Statement:

This template helps identify the challenges faced by customers while registering and tracking complaints. It focuses on understanding customer needs, barriers, and emotions to design an effective solution. The Customer Complaint Management System aims to provide a centralized platform for complaint registration, tracking, assignment, and resolution, thereby improving transparency and customer satisfaction.

I am 	Describe the customer and their attributes here
I'm trying to 	List the thing they are trying to achieve here
but 	Describe the problems or barriers that get in the way here
because 	Describe the reason the problems or barriers exist
which makes me feel 	Describe the emotions the result from experiencing the problems or barriers

Example:

Example for the project: [Customer Complaint Management System](#)

I am	I'm trying to	But	Because	Which makes me feel
 a customer	 submit a complaint and track its status	 I do not receive timely updates on my complaint	 there is no centralized complaint tracking system	 frustrated and dissatisfied

Explanation: This example shows the main problem faced by customers in registering and tracking complaints, due to the absence of a centralized system, which leads to frustration and dissatisfaction.
